

e-CLEAR Supports New Electronic In-Bond Filing Requirement For U.S. Customs

Vilden's **e-CLEAR** has the ability to file electronic in-bond and complies with the new rule. If you are not already filing electronically or completely meet the new requirements, this is the best time to consider finding a solution before the rule is fully enforced. **e-CLEAR** provides two options for filing in-bond:

1. File in-bond information with BL through ACE/AMS.
- Or
2. File direct paperless in-bond to Customs independent of BL filing.

Types of in-bond files that can be sent electronically to CBP

- **Immediate Transportation Entry (I.T.)** - Allows merchandise, upon its arrival at a U.S. port, to be transported to another U.S. port, where a subsequent entry must be filed.
- **Immediate Exportation Entry (I.E.)** - Allows cargo that has arrived at a U.S. port to be immediately exported from that same port without the payment of duties.
- **Transportation and Exportation Entry (T&E)** - Allows merchandise to be entered at a U.S. port for transit through the United States to another U. S. port, where the merchandise is exported without the payment of duties.
